

Dr. Jekyll & Mr. Hyde

STEP INTO A WORLD OF GAS LAMPS, DEEP GREY FOGBANKS, GARGOYLES IN THE GUTTERS, AND A LURKING GENTLEMAN GHOUL IN DR. JEKYLL & MR. HYDE – THE ALL-NEW FIVE-REEL GAME THAT REVIVES THE SPIRIT OF ROBERT LOUIS STEVENSON'S CHILLING CLASSIC IN SLOT FORM.

Like the original story, Dr. Jekyll & Mr. Hyde follows a respectable scientist who struggles to control the effect of his chemical experiments, which turn him into the monstrous Mr. Hyde and send him out to stalk the vice-ridden cobblestone streets of Victorian London. By day, Dr. Jekyll debates turning himself in to the police; by night, as Mr. Hyde, he indulges his darkest impulses, and that duality feeds right into the gameplay of Dr. Jekyll & Mr. Hyde. In the base game, symbols include a quill and ink, on which Dr. Jekyll writes his confessions, the cigars Mr. Hyde smokes as he stalks the night with a monocle and a maniacal grin, and a police constable's hat that demonstrates Jekyll's desire to give himself up and end the madness. Jekyll and his evil alter ego Hyde are also prominent, high-paying symbols in the base game – as well as being the two conflicting faces of Dr. Jekyll & Mr. Hyde's special features.

RTP: 96,1% | HIT RATE: 28%

MAX EXPOSURE: 4000

VOLATILITY: 3/5

WILD SYMBOLS – a chemist's workbench and apparatus – can appear on any base game spin, after which they are replaced in a whorl of green smoke as Mr. Hyde, hunched over with his cape and cane, expands to fill the entire reel, substituting for any basic symbol.

Scatters take the form of a split symbol: Mr. Hyde's glowing green potion in one half, and police paraphernalia in the other. Find three at once and enter the bonus game with an allocation of 20 free spins; find four to start off with 30 free spins; find five to let your inner monster run rampant over the course of 50 free spins.

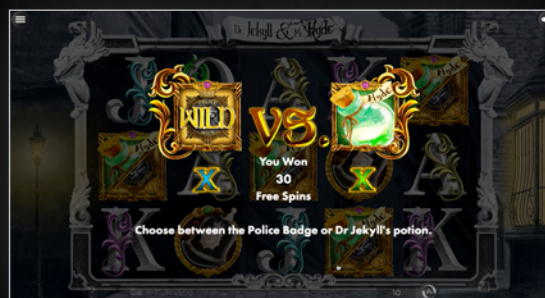

During free spins, the hue of the streetlights changes, and Dr. Jekyll & Mr. Hyde's monster-movie soundtrack takes on an even darker aspect. Here, players come to a crossroads: choose to walk the murky path of Mr. Hyde and exclusive sliding wilds will appear; choose to step into the shoes of Mr. Jekyll, and special sticky wilds will help guide you back to the light.

Sliding wilds slink through the shadows, revealing themselves as regular expanding wilds, but then moving one reel to the left with each consecutive spin, until they escape into the shadows. Sticky wilds announce themselves with a glow, doubling themselves vertically, then horizontally, to create a cross-shape before disappearing.

EXPANDING WILDS: Mr. Hyde is always lurking in the shadows, ready to drop down and fill an entire reel with a swirl of green smoke.

SHIFTING WILDS: In free spins, Mr. Hyde is even more persistent – moving left from street to street, and reel to reel, with each successive spin.

STICKY WILDS: Dr. Jekyll's conscience still plagues him in free spins, in the form of police-themed wilds that expand horizontally and vertically.

TAKE A WALK ON THE WILD SIDE WITH DR. JEKYLL & MR. HYDE – COMING SOON TO OPERATORS.
