

WHISKER JONES

RTP: 96.1% / Max. Win: 1500x

Min. Bet: 0.10 / Max. Bet: 100

VOLATILITY:

1X2gaming invites you to South America alongside the world's most Renowned Feline Adventurer; "Whisker Jones"! Deep in these dangerous and mysterious jungles, you'll search for the entrance to a hidden temple believed to hold the treasures of the most ancient royal families of the Aztecs!

Use your cunning, nine lives and Jones' Lucky Hat bonus symbol; which transforms non-special symbols into wilds, to traverse the dark and beast-infested Jungle to win upto 1500x your stakes on 5 x 3 reels! But to reach the entrance to the temple, you'll need to find between 3 and 5 special scatter symbols which Jones' assistant can translate into a map. When you've done this, you'll trigger the free spins round and make your way into the temple itself.

In these dark chasms you can hear the slithering and rumblings of the Basilisk! A huge serpent left there to guard the treasures and artefacts from a forgotten time! But you also catch the scent of... is that? Sauerkraut?? It must be Kurt von den Katzenführern! A spy sent to attack you and leave you buried in the temple forever! But where there is danger; there is also reward! Finding more scatter symbols will reward you with more free spins! Not to mention the Lucky Hat bonus symbol which gives you another free spin AND will replace the lowest royal symbol value with a wild symbol!

Treasure! Peril! Whiskers... What more could you want!?
