In Pirate Kingdom MegaWays™ a buccaneer crew has attacked a trade ship and is about to seize its treasure. Powered by the licensed Megaways technology, the six reels of Pirate Kingdom MegaWays™ change height independently with every spin. When a reel reaches seven symbols in free spins, it locks at full height until the free spin feature ends – a brand new addition to the Megaways formula.

The number of potential ways to win is recalculated every time – ranging from 64 to a maximum of 117,649. And a pair of Wild crossed pistols can fire at any time, substituting for any one symbol, while 2X Wilds double the payout of any win that includes them. Find three 2X Wilds in a single spin to earn 8X your haul of booty!

Every winning tumble in the base game sends symbols crashing to the deck, then others take their place. If those also create a win, a meter starts to build. Discover four or more rusty anchors in a single spin, then sink into Davy Jones's Locker with an allocation of up to 14 free spins. Add to a progressive multiplier and earn more free spins with every underwater tumble, and keep watch for the bone ladders that unfurl from the top of the screen when a reel locks at full height - increasing your odds of dredging a big win back up on deck.
