Join the jet set in Richie In Vegas – the new, 5x3 slot game that charts one man’s journey from humble casino hopeful to legendary high roller.

Richies leaves the plane in Las Vegas with a big dream: to see his name in neon lights. To help him realise it, you’ll ascend from the base game to free spins, then through a series of winner’s circles - with every stage offering new ways to strike it rich.

In the base game, Richie gets his start hunting for casino chips, dice, diamonds, and wilds. The basic Wheel of Chances also appears randomly in standard spins, and gives Richie his first tastes of the good life; cash prizes, expanding wilds, and even free spins can all be his with a spin of the wheel. Find five expanding wilds to fill the reels and Richie may even beat the house, winning up to 400X the total bet.

But it’s in the free spins game that Richie In Vegas brings to life all the high-stakes glamour of Las Vegas. Swapping his baseball cap for a bespoke tuxedo and mirrored shades, Richie transforms into the debonair Jackpot Richie the duration of free spins. A celebrity on the strip, spotting Jackpot Richie five times in a single free spin unlocks the game’s ultimate payout: a 40,000 Coins instant prize.

The Wheel of Chance also spins after every free spin, and with a snap of his fingers Jackpot Richie can upgrade the wheel through three levels – Winner, VIP, and High-Roller – earn additional free spins, and keep his winning streak going with even more cash prizes.
