VOLATILITY ★★☆☆☆

Open the doors of mystery in *The Curious Cabinet*.

The 5x4 slot game where players explore an antique dresser whose endless drawers are stuffed with occult artefacts, exotic relics, and high-paying expanding wilds.

Every item in *The Curious Cabinet* has a backstory: a human heart is pierced with voodoo pins; a skull has cursed rubies in its eye sockets plus scatter symbols. A sinister doll and a keyhole with a monstrous eye all of which come to life as they expand with rich animations and reveal potentially spectacular payouts.

The Curious Cabinet also contains silver drawers that, when opened, can reveal direct monetary prizes, high-paying monsters, and even re-spins which leave behind sticky wilds and guaranteed wins.

Find two drawers on the reels at once to trigger the free spins feature, where a new row of mysterious, guaranteed-win drawers are added to the bottom of the playing grid. Silver drawers contain up to 80 coins and a 2X multiplier and gold drawers can hide up to 2,000 coins and multipliers of 5X.

Perfectly timed for Halloween, play *The Curious Cabinet* to enter a world of living paintings, man-eating plants and frightfully big wins.
