DWARVEN BOMB

Alongside the Dwarven Digger, this band of miners also use Dwarven Bombs to make harvesting their treasure easier. Whether you are playing on the base level or on a round of Free Spins, The Dwarven Bombs act as Sticky Wilds. When not involved in a win, they will explode themselves and one random symbol from each vertical reel, plus 2 extra random symbols thus causing a tumble event. These bombs will only appear on the sub reel on your initial spin or tumble in.

LUCKY LAST SPIN

On your quest, you may trigger the free spins. Once the free spins have been granted, look out for the final one. If you win on this one, you will be gifted another, and so on. The Dwarf to the left will help you reach the tougher spots of the cave, by striking the ground with his pick axe and causing everything to shake. If you're lucky, this will cause some gems and gold to fall from above.

POWER GEM

Expect to see the Power Gems whilst mining alongside this trusty group of underground warriors. These mystical gems only materialize in free spins, but can also appear on any spin during your free spins. With every Power Gem you pluck from the depths of the earth 2-4 Wilds will be added to the reels. If you're lucky enough to dig out 2 Power Gems, Wilds may also appear on reel 5. Each Power Gem scavenged will award you +2 FS.
