RUM AND RAIDERS

Rum and Raiders is **Iron Dog Studio's** biggest Hold and Win title yet! With players setting sail for an intense gaming experience, and a veritable pirate's booty worth of features.

This **Hold and Win** title plays across a 5x4 board, with a maximum win of **25,000x stake**. During the base game, players will hunt for Skull and Bones Scatters, landing three of which will have them barrelling into the feature packed Hold and Win.

During Hold and Win, players are awarded **respins** by Iron Dog's dastardly crew of pirates, each contributing their own feature to the bonus round.

If players only land two scatters, they're still in luck! As they're sent to the game's **Broadside Bonus**, firing off rounds into a nearby merchant ship to reveal **multipliers**, and additional ammo.
