Details:

Megaways Jack and The Magic Beans is a fresh take on Iron Dog Studio classic Megaways Jack, with overhauled visuals and Spine animation, accompanied by more powerful features at a higher volatility.

Enter Freespins by landing four Scatter symbols, and trigger the pre-feature, where Beanstalks grow at random to determine the number of Freespins awarded, as well as Multiplier value, Locked Reels and the frequency of the Golden Harp feature.

During the Base game or Freespins, the Golden Harp can appear to trigger a range of bonuses, including Symbol Swap, or transforming into a Wild symbol.
