

Delve into the Wild West with this Gunslinging Marshal and help her detain the Outlaws.

Keep an eye peeled for the surprises the Marshal has in store as the reels spin and feature an expanding Marshal Wild who will appear on the reels to ensure the peace and keep the hard won payroll flowing.

One adventure is the Marshal's famous Bullet Bottle Bonus, where this law abiding Marshal displays her 'Crack Shot' skills with a 6 shooter on an array of bottles to win an array of glass shattering prizes.

Another wild endeavour you can encounter is the 'wanted posters' scatter symbol which allows you to join the hunt to round up the outlaws over a number of Freespins. During Freespins when both the Marshal and an Outlaw appear at the same time, she will capture him for her collection.

The more she collects the bigger the payout when it's time to claim the rewards. Whatever your aim, you'll find that this Marshal compensates generously for your assistance to collect her bounty!
