Vegas Hotspots takes a classic retail slot format and packages it up with Iron Dog Studio's signature VIP treatment. With a dynamic Hotspots feature and an additional reel in Freespins there's plenty of anticipation and excitement.

The titular Hotspots feature adds between 1 and 5 highlighted symbols on the board, each multiplying that symbol by the value shown.

Players can trigger Freespins by landing 6 Freespins bonus symbols, including any bonus symbols that are multiplied by a Hotspot.

During Freespins, an additional horizontal reel opens up above the board, providing more winning combinations and greater chance of landing multiple Hotspots.
