## Game Description

Sweet Candy Christmas from Iron Dog Studio is a brand new festive Scatter Pays game designed to infuse your lobby with the holiday spirit!

Starting off in the base game, players can trigger big wins just by landing eight of the same symbol anywhere on the board. When the player lands four Scatter symbols, the Freespins feature gets activated, paving the way for even greater wins!

During Freespins, players can maximise their payouts by landing multiplier candies. These candies have the power to multiply the current spin's winnings between x2 and x100, depending on the multiplier number on top of the candy.

To increase the chances of entering Freespins, players can activate the ante-bet feature. By doing so, players will only need to land three Scatters to trigger Freespins, further elevating the game excitement and potential rewards.
