Game Description

Iron Dog Studio's Branded Hold & Win is a 5-reel slot with customization options for casinos. Landing six or more Coins activates Hold & Win, granting three respins. Each new Coin landed resets the respins. During the Base Game, if a Wild and two H&W symbols (coin-coin or coin-diamond) land together on the same reel, the Wild expands paying out the Coins value. Coins can also turn into Jackpot Symbols, offering higher payouts if 3/4/5 of them are on the board. Freespins are triggered by landing three or more Scatter Symbols. Landing more Scatter Symbols triggers additional Freespins. At the end of the mechanic, these Scatters transform into coins, increasing the chances of entering Hold & Win.

If the player enters Hold & Win while on Freespins, they are granted a higher payout.
