Game Description

Join Zeus in **Gods of Olympus IV** and embark on an epic quest for gold and power!

Witness Zeus descend onto the board, ready to gather gold Olympian coins and deliver supernatural payouts. But beware—the powerful god of the sky only collects coins if he lands **stacked!** However, if a single Zeus symbol appears, there's still a chance it may nudge into a stacked one. The more coins Zeus collects, the closer you get to hitting exciting jackpots!

And the thrill doesn't end there. Land **three or more** Scatter symbols to trigger **Freespins**, where the frequency of Zeus collecting gold coins increases and the Mega Jackpot (2500x) unlocks, offering even greater rewards. During Freespins, 1x1 Zeus symbols will always nudge, ensuring even more chances to win big!
