Land 6+ coins to activate **Hold & Win** and break the case wide open with 3 respins that reset with every new coin landed!

GAME DESCRIPTION

Inspector Wilds is on the case with a knack for sniffing out big wins and explosive rewards. In **Iron Dog Studio's** latest 5x4 crime scene slot, the stakes are high and the reels are locked and loaded.

As the reels spin in the **base game**, every coin landed pulls you deeper into the investigation and uncovers hidden exhibits, secret notes, and elusive weapons, all stacked at the top of the reels marking your progress towards solving the case and cashing out.

Land **6+ coins** to unlock **Hold & Win**, launching 3 respins that reset with every new coin. Not enough coins to solve the case and trigger **Hold & Win**? Don't hang up your trench coat just yet: a random **coin shower** can swoop in, triggering the feature and kicking off a high-stakes police pursuit on the reels.

During **Hold & Win**:

Collectors gather the values of coins, jackpots, and other special symbols

Modifiers boost the payout value of up to 3 coins

Mystery coins turn into random cash values.

Fill the entire board and raid the reels with the **Grand Jackpot** (5,000x)!

So dust off your magnifying glass and follow the clues: when **Inspector Wilds** hits the reels, no win remains unsolved!
