GAME DESCRIPTION

3 Wild Aliens have crash-landed on the reels, and their UFOs are loaded with cosmic surprises. Houston: prepare for a galaxy of big wins and interstellar payouts!

In the base game, coloured coins are beamed up to the UFO of the corresponding colour, making it grow. Land 6+ coins to activate the **Extraterrestrial Hold & Win** feature, awarding 3 respins that reset with every new coin landed!

If not enough coins land to trigger Hold & Win, a random **coin shower** might set off the feature. And there's more! Each alien has a different exo-ability that unlocks when landing their corresponding colour coin upon activating the H&W.

Stanley's pink coin adds cash values to random symbols and upgrades all jackpots for supergalactic boons!

The Enigma's blue coin collects the value of all coins, including mystery symbols and other collectors, fuelling astronomical payouts!

Goober's green coin applies a multiplier (2-5x) to random positions across the board before transforming into cash values!

And that's not all! Landing **3+ Scatters** triggers the **Freespins** feature, granting 8 free spins during which all **Wilds** transform into **2X Wilds**!

3 Wild Aliens. Three cosmic powers. One universe of wins. **Iron Dog Studio's** latest extraterrestrial slot adventure is truly out of this world!

GAME FEATURES**HOLD AND WIN**
