GAME DESCRIPTION

Hell is empty... and the devils are on the loose! Three wicked little fiends have broken free from the fiery pits of the underworld, and they're lighting up the reels in **3 Wicked Devils**, bringing sizzling **Freespins**, diabolical **Hold & Win** rounds, and blazing-hot payouts!

Watch as colored flames are lifted into their matching cauldron above the reels. With every toss, the pots grow bigger and bigger... until chaos erupts during **Hold & Win**, when the devils' abilities are unleashed. Land **6+ flames** to trigger hellish **Hold & Win**, granting 3 respins that reset with every new flame landed.

Beelzebub (Blue Flame): Adds a random multiplier (2x to 10x) to all other cash-value coins on the board!

Blaze (Purple Flame): Scoops up the value of all coins on screen, including Mystery and Collector symbols for a diabolical collection spree!

Ash (Red Flame): Transforms into a random cash value!

Here's the infernal twist: Only colored flames that landed during the triggering spin can appear in the bonus round! But fear not, a devil's ability can still be triggered without a matching coin by landing the **Devil Face symbol**! It instantly transforms into one of the colored coins.

And if you fall short of the trigger, a random **Coin Shower** might still activate the feature.

And there's more! Land **3+ Scatters** to trigger **8 Freespins**, during which all wicked Wilds become **2X Wilds**!

Are you ready to spin your way through hellfire? **3 Wicked Devils** are here, and they're ready to wreak havoc on the reels!
