## GAME DESCRIPTION

Ay caramba! **Señorita Carmelita**, **Juan-Carlos**, and **Enrique** are making a comeback... and the vibe is more loco than ever! Brace yourself for **3 Piñatas** by **Iron Dog Studio**, the hottest fiesta this side of Mexico!

The good times begin in the base game: When a matching colored coin lands, the three colored pots (Blue, Green & Pink) at the top of the reels grow fuller!

Not zesty enough for you? Land **six or more coins** and it's **Hold & Win** time, amigo! In **H&W**, get 3 respins that reset with every coin, keeping the party alive. Fill the whole board and you'll score the **MEGA 5,000x Jackpot**! Each colored coin has a totally loco special feature:

**Blue Coin:** Adds a spicy 2–10x kick to every cash coin on the board, then turns into its own juicy prize!

**Green Coin:** Adds a random cash value on the spot landed (15x–150x), with the 15/50/150x transforming it into a delicious Jackpot coin!

**Pink Coin:** Scoops up every coin value on the board!

**Transformer Coin:** Lands only during H&W and randomly transforms into any of the three coins!

If not enough coins land to activate **H&W**, there's a chance for a confetti coin shower, launching you from siesta into a H&W fiesta in an instante! And the celebration doesn't end there! Land **3+ Scatters** for a **Freespins Fiesta**, granting eight feature spins during which all wilds become **2x Wilds** for extra sweet wins!

So, when life gives you piñatas, wack 'em and stack 'em, 'cause the 3 Piñatas are back... and this fiesta's about to get fabulosaaaa!
